Art Unit: 3727

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 13, 14, and 24-28 are rejected under 35 U.S.C. 102(b) as being anticipated by Weisz.

Weisz discloses a container see Fig. 3 and 4 comprising a base having a bottom wall and side walls defining an interior compartment, the two lateral side walls defining a locking element (vertical slot 20 and spring 24), a single cover 12' pivotally mounted to the back wall for pivotal movement as a whole between open and closed positions, a handle 13' including a handle portion (the uppermost inverted U-shaped portion which extends above the center portion of the cover) and a cover locking mechanism (all other portions of the handle 13' including the portions extending along the lateral side walls, lugs 23 and the top portion of the handle which bears against the cover [see page 1, col. 2, lines 35-37]), the handle being movably mounted to the cover by a slidable connection of handle 13 within eyes 16 and by a pivotal connection of handle eyes 16 within brackets 15 which are connected to cover 13', the handle is movable to move the cover locking mechanism into interlocking engagement with the locking element (slot 20) to lock the cover in the closed position when the locking mechanism bears against the cover.

Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Skillius.

Although Skillius discloses two covers, the claim limitation "a single cover" doesn't preclude two covers. When the first, single cover is moved to the closed position and the second

Art Unit: 3727

cover is already closed, the single cover covers the interior storage compartment such that access to the interior compartment is prevented.

Claim 26 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Fiore.

Claims 3-12 and 29 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 15-23 are allowed.

Applicant's arguments with respect to claims 1, 2, 13, 14, 24-28 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

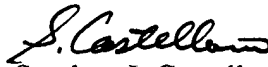

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
